

# BIT Circus 2012

## Numerical Mathematics and Computational Science

August 23-24, 2012

### Venue

The Technical University of Denmark

### Invited speakers

Professor Rasmus Bro, Copenhagen  
University

Professor Jan S. Hesthaven, Brown  
University

### Invitation

The circus motto is "everybody is welcome, nobody is invited".  
Younger researchers present their on-going work.  
Everybody get the chance to give a short presentation.  
Exchange ideas on numerical mathematics and computational science.  
Bring modeling, computation, and analysis closer.

The circus is free of charge, including "simple" accommodation for Ph.D.-students and PostDoc's. Travel expenses are not covered.

Advance registration is required so that we can prepare the circus and the accommodation.  
Deadline for registration is Friday, June 15, 2012 at the website.

Information about the circus can be found at:  
<http://www.math.ku.dk/~hugger/BIT2012circus>

This conference is supported in part by the BIT journal and DCAMM. For more information, please visit the web site or contact the organizers at [pch@imm.dtu.dk](mailto:pch@imm.dtu.dk) or [hugger@math.ku.dk](mailto:hugger@math.ku.dk). Please pass this message along to interested students or colleagues.
